

# | KAR 817 DMR

## HIGH-PRECISION DESIGNATED MARKSMAN RIFLE

The KAR 817 DMR stands as a pinnacle of modern high-precision rifles, tailored for infantry designated marksman roles. It seamlessly bridges the engagement range between a service rifle and a dedicated sniper platform. Designed to excel, the KAR 817 DMR is available in both 7.62x51mm NATO and .308 WIN calibres, featuring two barrel length options – 16" and 18". This ensures autonomy and instills confidence in SWAT teams, squad-level military deployments, and marksmen, enabling resounding success across various missions. Driven by a short-stroke gas piston system, the KAR 817 DMR embodies exceptional efficiency. Its distinctiveness from traditional sniper rifles lies in the inclusion of a semi-automatic mode, enabling higher rates of fire for swift engagement of multiple targets.

The KAR 817 DMR redefines precision, empowering designated marksman roles with unmatched capability, ensuring mission success in diverse operational landscapes.
